**RE: Jeff Nelson** (10/10/1980, AB12345)      **Date of Procedure:** 8/24/2011

Dear Dr. Physician,

I have seen Jeff Nelson in consultation. As you recall, he is a 30 year old male with the following lesion(s):

Basal Cell CA – Medial Right Cheek (0.0 x 0.0 cm, translucent sclerotic papule ).

I reviewed the treatment options with the patient. We plan to remove this lesion by Mohs Micrographic Surgery on Friday, August 26, 2011. The lesion exhibited indications such as: poorly def. borders and anatomic location.

Thank you for letting me take part in the care of Mr. Nelson. If I can be of further assistance, please let me know.

Sincerely,

---
